

Statement of Need Feedback Form – Please complete and leave on the board

Please help us with your feedback in order that we can complete a comprehensive information gathering to make this church a better place for whole community in the years to come.

As well as aiming for net-zero energy use in the future and avoiding burning of oil or gas, there is an opportunity to update and upgrade the church to turn it into a more flexible space and to help more community engagement for a variety of activities and events.
